

CUBEX LTD.
PRODUCT UPDATE

BULLETIN: PU-0010

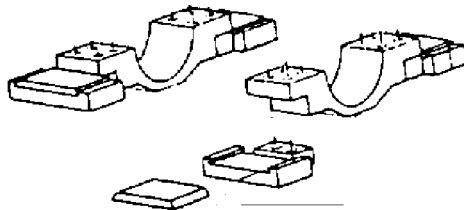

DATE: FEBRUARY 14, 1991

SUBJECT: TELESCOPIC CYLINDER MOUNTING CHANGED

INFORMATION: FORMER BRACKETS
The former mounting brackets utilized 8 CAM rollers to guide the telescopic cylinder on the guide bars.

CURRENT BRACKETS
The new brackets use replacement wear inserts to guide the telescopic cylinder on guide bars.

The new mounting system will provide longer service life than the former CAM rollers.

Parts required to install the change up:
2 - #CM45222 CLAMP ASSEMBLY
4 - #CM45224 SHIM PACK
